**Subject:** EPA's Review of the Sims Ecological Risk Assessment

Melisa,

EPA Region 9 received the *Final Sediment Investigation Report* and *Draft Ecological Risk Assessment* submitted to EPA for review on Thursday, March 1, 2018.

We are reviewing the two submittals, particularly the Draft Ecological Risk Assessment (ERA), and drafting comments and questions that we would like to discuss with you and your team at Sims Metal Management. In the next few weeks we will propose some dates and times for a meeting in May or early June. EPA is willing to host the meeting in our office or would be willing to meet at Sims Redwood City.

If you're amenable with the idea of a meeting, please let me know if there any dates during these next two months that would *not* work for you. Otherwise, I will propose a date and time in the near future.

Respectfully,

*Lawrence Torres*

Clean Water Enforcement Section II (ENF-3-2)
